

SUPAPHEN

HIGH PERFORMANCE INSULATION

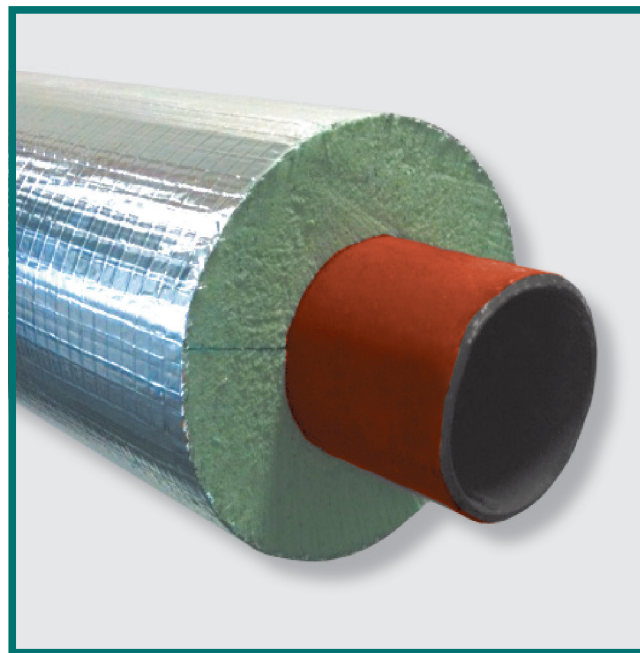

SUPAPHEN

HIGH PERFORMANCE
INSULATION

SUPAPHEN

Supaphen - the benefits are simple

-  B_L s1 d0 Euroclass fire classification
-  CE marked in line with product standard BS EN14314
-  Verified in accordance with the requirements of EN 15804:2012+A1:2013

Environmental Benefits

- Supaphen is 100% CFC and HCFC free, zero Ozone depletion potential and low GWP
- MW Insulation operate to an ISO 14001 certified Environmental Management System
- Environmental Product Declaration verified by BRE

Fire & Smoke Safe

- Supaphen has been tested to European fire test standard EN13501-1 achieving B_L s1 d0 on 25mm and 50mm thick foiled pipe section
- Supaphen is highly resistant to burning with low flame spread and low smoke emission

Insulation Value

- Supaphen is very thermally efficient with a max aged k value of 0.025 W/m·K

Additional Benefits

- Supaphen is closed cell providing high moisture resistance
- Supaphen pipe sections are bore coated with a passivating solution in line with major engineering specifications

Approvals & Compliance
